

Academic and Research Resume of Faculty Members

Iran University of Medical Sciences
Public Health School

Personal Information

Full Name: Seyedeh Melika Kharghani Moghadam

Organizational Position: Educational Faculty

ORCID ID: 0000-0002-6451-2270

Field of Specialization: Health Education, Health
Promotion in Workplaces and Hospitals, and Design of
Applied Interventions

Educational Background

Degree	Field of Study	University
PhD	Health Education and Health Promotion	Hamedan university of Medical Sciences
Master	Health Education and Health Promotion	Tehran university of Medical Sciences
Bachelor	Public Health	Tehran university of Medical Sciences

Contact Information

Iran University of Medical Sciences,
School of Public Health – Department
of Health Services

Teaching Experience

Courses Taught

Course Title	Program / Field
Applied Technology in Health Education and Health Promotion (1)	M.Sc. in Health Education and Health Promotion
Applied Technology in Health Education and Health Promotion (2)	M.Sc. in Health Education and Health Promotion
Principles of Prevention of Communicable and Non-Communicable Diseases	M.Sc. in Health Education and Health Promotion
Sociology of Health	M.Sc. in Health Education and Health Promotion
School Health Education and Health Promotion	M.Sc. in Health Education and Health Promotion
Communication in Health Education and Health Promotion	M.Sc. in Health Education and Health Promotion
Medical Information Systems	M.Sc. in Health Education and Health Promotion
Internship	M.Sc. in Health Education and Health Promotion
Practicum	M.Sc. in Health Education and Health Promotion
Medical Sociology	M.Sc. in Health Economics
Sociology and Organizational Behavior Management	M.Sc. in Nursing Management
Practicum in Sociology and Organizational Behavior Management	M.Sc. in Nursing Management
Health Promotion and Health Education	MD-MPH
Health Promotion and Health Education	MPH
Health Education	B.Sc. in Occupational Health Engineering
Reforms in the Health System	Advanced Public Health Program (MD-MPH)
Internship	Advanced Public Health Program (MD-MPH)
Demography	Advanced Public Health Program (MD-MPH)
Sociology of Health and Social Determinants of Health	Advanced Public Health Program (MD-MPH)
Adolescent and Youth Health	MD-MPH
Medical Information Systems	MD-MPH
Medical Information Systems	MPH
Sociology of Health and Social Determinants of Health	MD-MPH
Medical Information Systems	Students of the Virtual Community-Oriented Education Program
Design and Implementation of Educational Workshops	Students of the Virtual Community-Oriented Education Program
Healthy Lifestyle	Students of the Virtual Community-Oriented Education Program
National Program for the Control of Non-Communicable Diseases and Their Epidemiology	B.Sc. (Associate-to-Bachelor) in Public Health
National Program for the Control of Non-Communicable Diseases and Their Epidemiology	B.Sc. in Public Health
Field Internship	B.Sc. in Public Health
Field Internship	B.Sc. (Associate-to-Bachelor) in Public Health

Workshops Conducted

Workshop Title	Participants / Audience
Entrepreneurship in Health Education	Graduate Students in Health Education and Health Promotion

and Health Promotion	
LMS Training and Exam Design	Faculty Members
Proposal Writing	Graduate Students in Medical Sciences
Research Methods and Proposal Writing Workshop	Graduate Students in Medical Sciences
Healthy Lifestyle for Senior Citizens	Senior Citizens Cultural Center (Hamedan Municipality, Vice-Chancellor for Social, Cultural, and Tourism Affairs)
Searching Information Databases	Student Research Center, Hamedan University of Medical Sciences
Development of Operational Action Plans	Hamedan University of Medical Sciences (Undergraduate Public Health Students)
Family and Population Growth Educational Workshop	Faculty Members of Iran University of Medical Sciences

Research Experience

Books:

- 1- Author of the book: "Towards Third Generation Universities (How to Manage Universities in Transition)"/Arena Publications – 2017
- 2- Translation of the book: "Promoting Workplace Health (A Practical Guide for Program Development)"/Fanavaran Publications – 2017
- 3- Translation of the book: "Innovation and Entrepreneurship in the Health Sector from Idea to Funding and Implementation"/Arshadan Publications – 2010
- 4- Translation of the book: "Machine Learning in Chemical Health and Safety: Fundamentals and Applications"/Fanavaran Publications – 2019

Research Projects:

- Studying the effect of Covid-19 health anxiety on general anxiety and quality of life in shopkeepers
- Studying the relationship between transformational leadership and job engagement of nurses at Shahid Chamran Hospital, Tehran in 2011
- Modeling the effect of workload on nurses' quality of life with the moderation of social support during the Covid-19 epidemic
- Modeling the relationship between psychological capital and intolerance of uncertainty on nurses' job performance mediated by corona anxiety
- Studying the relationship between spiritual health and anxiety in pregnant women referring to comprehensive health service centers in Abhar city in 2011
- Studying the relationship between social responsibility and the level of compliance with corona disease health protocols in the population covered by Andimeshk city health center in 2020
- Studying the relationship between general health and depression in the elderly living in urban and rural areas of Zanjan city in 2020
- Studying the relationship between health literacy and health-promoting lifestyle of hospitalized patients in internal wards of hospitals covered by Iran University of Medical Sciences in Tehran in 2020
- Studying the relationship between the nutritional status of women referring to Khodabandeh city health centers and the growth trend of their infants in 2020 2020
- Modeling the effect of workload on nurses' quality of life with social support moderation during the Covid-19 epidemic
- Investigating the status of coronavirus prevention measures in industries and determining the level of risk
- Investigating the current status of Iran University of Medical Sciences in terms of entrepreneurial and third-generation university standards
- Investigating the effect of personality traits on driving errors
- Investigating related factors and preventive interventions for injuries caused by traffic accidents among adolescents and young people: A structured review study
- Investigating the relationship between Internet addiction and communication skills of female students living in dormitories of Hamadan University of Medical Sciences in 2016-2017 based on social support theory
- Investigating factors affecting oral and dental hygiene of pregnant mothers referring to health centers in Hamadan based on the health belief model in 2016
- Investigating the effect of educational interventions on promoting couples' sexual health: A systematic review study
- Investigating the effect of using educational videos using the prototype model on reducing dependence on Internet among students of Hamadan University of Medical Sciences Hamadan University of Medical Sciences
- Understanding the experiences of patients referring to the behavioral counseling center regarding the consequences of living with HIV: a qualitative study
- Evaluation of educational workshops of the Student Research Center of Hamadan University of Medical Sciences from the perspective of participating students in 2015
- A qualitative study to discover the mindsets and experiences related to rhinoplasty among students of Hamadan University of Medical Sciences
- A qualitative study to understand the problems of drug use from the perspective of the elderly in health centers in Hamadan city

- Investigating the status of health literacy with self-care behaviors of diabetic patients referring to the diabetes clinic of Tuyserkan city
- Investigating how injuries caused by falls occur in elderly people aged 60 to 75 years referring to Besat Hospital of Hamadan - 2014
- Investigating the effect of educational intervention based on the health belief model in preventing arbitrary drug use in women Referrals to health centers in Sabzvar city in 2012

Thesis (First Supervisor):

1. Investigating the relationship between stress coping strategies and job self-efficacy of nurses involved in cardiopulmonary resuscitation at Shahid Rajaee Cardiovascular Hospital, Tehran, 2014, thesis code: 30851
2. Investigating the relationship between elder abuse and perceived social support with self-efficacy of health behaviors in the elderly covered by the Shemiranat Health Network, 2014, thesis code: 26802
3. Investigating the predictors of intention to perform cervical cancer screening based on the theory of planned behavior and its relationship with perceived barriers and benefits in female teachers in District 2 of Karaj, 2014, thesis code: 24123
4. Investigating the relationship between social support and social health in high-risk elderly in Aq Qala County, 2014, thesis code: 25624
5. Investigating the relationship between social health components and sleep quality in diabetic elderly covered by comprehensive health service centers in Arak City, 2014, thesis code: 24674
6. Comparing complications Corona vaccines by vaccine type in pregnant women referring to vaccination centers in West Tehran in 1400, thesis code: 24386
7. Investigating the relationship between spiritual health and existential anxiety caused by COVID-19 in the elderly covered by Shahid Beheshti University of Medical Sciences, Tehran, 1400, thesis code: 22606
8. Investigating the relationship between internal marketing and job satisfaction of nurses working at Mousavi Hospital in Zanjan in 1400, thesis code: 20586
9. Investigating the relationship between spiritual health and anxiety in pregnant women referring to comprehensive health service centers in Abhar city in 1400, thesis code: 20578

Thesis (Second Supervisor):

1. Explaining students' experiences regarding the advantages and disadvantages of simultaneously completing a higher degree in public health and medicine: A qualitative study, thesis: 32602
2. Investigating the causes of medical students and graduates' reluctance to study pediatric residency in Iran: A qualitative study, thesis code: 32973
3. Investigating the relationship between place attachment and psychological well-being of the elderly under the care of an urban family doctor in Larestan County in 1401, thesis code: 24511
4. Investigating the knowledge, attitude, and performance (KAP) of medical students at Iran University of Medical Sciences regarding the prevention and treatment of Zika virus in 1401, thesis code: 24168
5. Investigating the relationship between public and occupational health literacy and the presence of occupational health organizations among industrial workers in Kashan County in 1401, thesis code: 22926
6. Determining the validity and reliability of the questionnaire on beliefs related to receiving the Covid-19 vaccine based on the theory of the health belief model, thesis code: 22659
7. Investigating the relationship between depression and falls in elderly people in Baharestan County from 2018 to October 2019; a retrospective study, thesis code: 22383
8. Investigating the relationship between social capital and voluntary activities of elderly people living in District 19 of Tehran in 2019, thesis code: 22144

9. Designing and implementing a questionnaire on functional health literacy of pregnant women in the context of the COVID-19 virus in Tehran, thesis code: 22077

Thesis (Advisor):

1. Designing a game-based educational intervention to improve communication and self-control skills and investigate its effect on reducing aggression in girls in the second year of primary school in Kohdasht city, thesis code: 35247
2. Satisfaction of patients with the provision of outpatient services to foreign children at the Children's Clinic of Firoozabadi Hospital, 19948
3. Explaining the safety challenges of surface mines from the perspective of employees, managers and safety officials and examining their relationship with each other using a qualitative method _Fuzzy Dimethyl (Case study: one of the iron ore mines in Yazd province), thesis code: 24751
4. Mental patterns of adolescents in leisure physical activity: based on the theory of planned behavior, PhD thesis in Physical Education and Sports Sciences (Sports Management), Tarbiat Modares University
5. Investigating the knowledge, attitude and performance of non-Iranian mothers in the field of immunizing children against measles in Robat Karim city, thesis code: 24017
6. Investigating the relationship between religious orientation and Social well-being of the elderly in Tehran's 5th and 6th districts in 1402, thesis code: 23225
7. Investigating the relationship between socio-economic status of individuals and cancer incidence and mortality in the Golestan cohort, thesis code: 18849
8. Investigating the relationship between health literacy and health-promoting lifestyle of hospitalized patients in internal wards of hospitals under the auspices of Iran University of Medical Sciences in Tehran in 1399, thesis code: 18828

Conferences/Congresses:

Lectures:

- 1- Studying the relationship between social health and its indicators on the quality of life of dormitory students of Tehran University of Medical Sciences / Third National Conference on Social and Cultural Research in Iranian Society / Tehran, Ishraq Conference Hall (Iranian Sociological Association)
- 2- Studying the status of daily fruit consumption in dormitory female students and its determinants based on the constructs of the Theory of Planned Behavior / Seventh Conference on New Health Sciences / School of Public Health, Shahid Beheshti University of Medical Sciences
- 3- Evaluation of the adverse effects of environmental pollutants PBBs and PBDEs transmitted through food packaging with a view to women's reproductive health / Sixteenth National Conference on Environmental Health of Iran / Tabriz University of Medical Sciences
- 4- Studying the consequences of participating in the Arbaeen Hussaini walk on the components of psychological, social and spiritual health of Iranian pilgrims: a review study, Tehran / First International Conference on Imam Hussein (AS) and Health / University of A.P. Iran.
- 5- One-day scientific conference on the health education program of pilgrims participating in the Arbaeen Hussaini march / Iran University of Medical Sciences / 1403

Posters:

- 1- Factors affecting self-care from the perspective of the elderly: A qualitative study / 2nd International Congress and 6th International Congress of Health Education and Health Promotion of Iran / Kermanshah University of Medical Sciences
- 2- Study and evaluation of mental health status and factors affecting students of Tehran University of

Medical Sciences, 2010-2011 intake / 7th Conference on Health Sciences News / Shahid Beheshti University of Medical Sciences School of Public Health

- 3- Study of the effect of education based on the health belief model in order to prevent arbitrary drug use in women in Sabzevar city / 5th National Congress of Health Education and Health Promotion / Imam Khomeini Conference Center, Tehran University of Political Science
- 4- Evaluation and study of the problem of addiction among students in the country - a case study / 5th National Congress of Health Education and Health Promotion / Imam Khomeini Conference Center, Tehran University of Political Science
- 5- Study of the effectiveness of education on health beliefs and performance of women referring to Shahid Behtash Clinic, Lavizan District, Tehran, in the field of breast cancer screening methods using the health belief model / 5th National Congress of Health Education and Health Promotion / Imam Conference Center Khomeini University of Medical Sciences, Tehran
- 6- Barriers and Facilitators Related to Colon Cancer Screening: A Qualitative Study/ 7th National Congress of Health Education and Health Promotion/ Imam Khomeini Conference Center, Tehran
- 7- Ethics of Research in Health Sciences in Iran/ 3rd National Congress of Social and Cultural Research in Iranian Society/ Tehran, Ishraq Conference Hall (Iranian Sociological Association)

Congress Review:

- ☐ Referee of the 10th National Congress of Health Education and Health Promotion and the 3rd National Conference on Health Literacy, Fall 1404
- ☐ Referee of the Scientific Committee of the First International Conference on Occupational Safety and Health in Hospitals and Health Centers / June 1400
- ☐ Referee of the Scientific Committee of the 11th Conference on Health Sciences News, Shahid Beheshti University of Medical Sciences / (Referee of more than 100 articles in the field of health education and health promotion) / Public Health
- ☐ Referee of the Jury Committee of the National, Literary, Artistic, and Cultural Festival of My Young Land (Referee of more than 100 works in the fields of writing, visual, and audio) / June 1402

Achievements and Honors

Top Student Researcher in the 17th Research and Technology Festival of Hamadan University of Medical Sciences/Research Week 2016

Technical and Professional Skills

English

Skills in working with structural equation software AMOS; PLS,

Skills in working with content production software CANVA, Power point, Prezi,

Scientific Memberships and Academic Activities

- ☐ Research Vice President, Graduate Program in Public Health (MPH), 2023 to 2025
- ☐ Member of the Research Council of the School of Public Health, Iran University of Medical Sciences, from 2023 to 2025
- ☐ Member of the Educational-Research Council of the Graduate Program in Public Health (MPH) from 2023 to 2025

- Responsible for Educational Research Knowledge of the School of Public Health, Cooperation with EDO, School of Public Health, Iran University of Medical Sciences, from 1402 to date
- Member of the Student Evaluation Committee of EDO, School of Public Health, Iran University of Medical Sciences from 2023 to date
- Secretary of the Council for Promoting Good and Forbidding Evil, School of Public Health from 2023 to date
- Member of the Cultural Council of the School of Public Health from 2023 to date
- Member of the Editorial Board of the Archives of Occupational Health Quarterly, Yazd University of Medical Sciences since 2020 to date
- Member of the Scientific Association for Health Education and Health Promotion
- Head of the Student Working Group of the Scientific Association for Health Education and Health Promotion
- Head of the Faculty Member Empowerment Group
- Member of the Content Production Committee of the Youth EDC Society, Iran University of Medical Sciences 2023-2024
- Advisor to the Dean and Public Relations Officer of the School of Health, Iran University of Medical Sciences from March 2020 to 2024
- Secretary of the Think Tank of the School of Health, Iran University of Medical Sciences from July 2020 to 2022
- Family Health (Head of Health Education Unit, Head of Vaccination and Screening of 3-5 Day Old Newborns)/ Imam Hassan Mojtaba Health Center (AS)/ 2012-2013
- Head of the Secretariat of the First National Student Conference on Social Factors Affecting Health, October 11-12, 2010/ Iran University of Medical Sciences and Health Services/
- Cooperation in holding scientific lectures on Self-Care-Oriented Health Week/ Hamadan University of Medical Sciences, School of Health/ May 1-2, 2014
- Holding Civic Culture Workshops on the Occasion of Health Week/ Hamadan Municipality Social, Cultural and Tourism Deputy/ April 19-May 28, 2015
